

Morning Ben & Jo,

Well I don't know what to say I am totally speechless. The pictures are amazing. I had such high expectations of your work after seeing all those samples at your house before the wedding and you both have lived up to everything.

I absolutely love them.

Dale said they are brilliant and to pass on his thanks. Think he was a little surprised as well.

On the day I received so many comments about both yourself and Jo. Everyone was saying that you made everything work so well and made them all feel so comfortable when they were having there pics taken. They all wanted to say how professional you both are.

I know who I will be calling when dale and I want to get some portrait pics or someday when we would like to get a family portrait....won't be going to one of those crap star shots places that for sure.

Thank you so much for making our day even more special.

Bay and Dale
